After discussing with [redacted] Tarabochia's request for Agency background information on [redacted] I informed Tarabochia that we had no background information on [redacted] other than on his father, [redacted] who had been a functionary of the Cuban Communist Party. I made it clear that we had provided no information to DIA on [redacted] other than a photograph.

2. [redacted] Jim Davidson, Counsel, Senate Government Operations Subcommittee on Intergovernmental Relations, called to advise that Senate floor action on S. 3418, the right of privacy bill, had been deferred until after the recess. According to Davidson, this will permit the staff to review carefully the exemptions requested by CIA and other agencies. He will call.

3. [redacted] Received a call from [redacted] who was calling from Representative Walter Flowers (D., Ala.) Tuscaloosa office. [redacted] is a pre-med college student interested in federal employment opportunities two years hence after graduation. No further action is indicated.

4. [redacted] Met with Chairman Lucien Nedzi, Intelligence Subcommittee, House Armed Services Committee, to discuss with him his understanding of the terms of the agreement under which the Agency would inform the Foreign Affairs Committee with respect to "intelligence activities relating to foreign policy." See Memo for Record.

I also discussed with the Chairman the Ryan amendment to the House version of the Foreign Aid bill and he saw no difficulty with it. In fact he said he thought it was consistent as far as the House was concerned with the agreement reached between Dr. Kissinger, Mr. Colby and the leadership of the Armed Services and Foreign Affairs Committees.
